In our recent work (Xu et al. 2026), we failed to directly cite the basionym when publishing the new combination *Mouretia hainanensis*. This omission renders the combination nomenclaturally invalid, as it is contrary to Art. 41.5 of the International Code of Nomenclature (Turland et al. 2025). We provide a formal correction below.

***Mouretia hainanensis* (H.S.Lo) Z.Q.Song & D.X.Xu, comb. nov.**
